LATE REGISTRATION

LIVE EVENT SOLD OUT – no late registrations possible!

Since this year's participant limit has already been reached, we can no longer accept any additional registrations.

Registration for the Virtual Run is still open, but does not entitle participants to take part in the live event.

The Virtual Run can be completed between Wednesday and Sunday during the event week on any route using the viRACE app.

Late registrants for the Virtual Run will receive a digital bib number, not a physical race kit.

Thank you for your understanding.

RACE KIT COLLECTION

We strongly recommend to pick up the race kits in advance.
IMPORTANT: The documents will only be handed out upon receipt of payment! If the invoice amount hasn't been paid into our account by September 11th, we kindly ask you to bring a confirmation that the costs have been covered when you pick up your race kits.

Otherwise, the registration fee will have to be paid on site (cash/card).

We ask that one person (usually the team captain) collects all race kits on behalf of the entire company.

The race kits include the bib numbers and gym bags with goodies for each runner. The race kits will not be sent out by post.

START

The starting signal will go off at 6:30 p.m. in front of the Coque (Rue Léon Hengen).

In order to make running as pleasant as possible for all participants, we kindly ask you to position yourself in the starting field according to your targeted running time (fast runners at the front, slower runners and walkers further in the back). Please keep on the right side and, if necessary, pass on the left.

Please make sure your bib number and the timing chip attached to it are properly fixed to the front of your t-shirt to ensure accurate timing.

Fairness matters! Please be considerate of other participants!

To all walkers: Please start without poles!

TIMING

The timing is done with a so-called single-use system. The transponders do not have to be returned after the run.

The transponder is located on your bib number. Please attach the bib number to the front of your T-shirt with safety pins so it is clearly visible.

Do not remove or bend the transponder, as this could damage the chip and correct timing can no longer be guaranteed!
